

Beginner Kites

SP 8313

168 x 69 cm 140 gr. 4mm. carbon
Ripstop 42 gr. Bridles 100%
Dyneema

variety of tricks: from the most basic to the most advanced
backspins, lazy Susan, spike, slot machine, 540, cometé,

such a feature in most kites of its
mostly due to its design, but also
composed by 2 weights of 6gr each, placed inside its spine.

genesis

Genesis by Eolo-Sport has been developed to cover all aspects related to Freestyle initiation. This kite is pure fun and its behaviour reminds to that of a much larger kite. Handling is therefore easier than it could seem due to its little size.

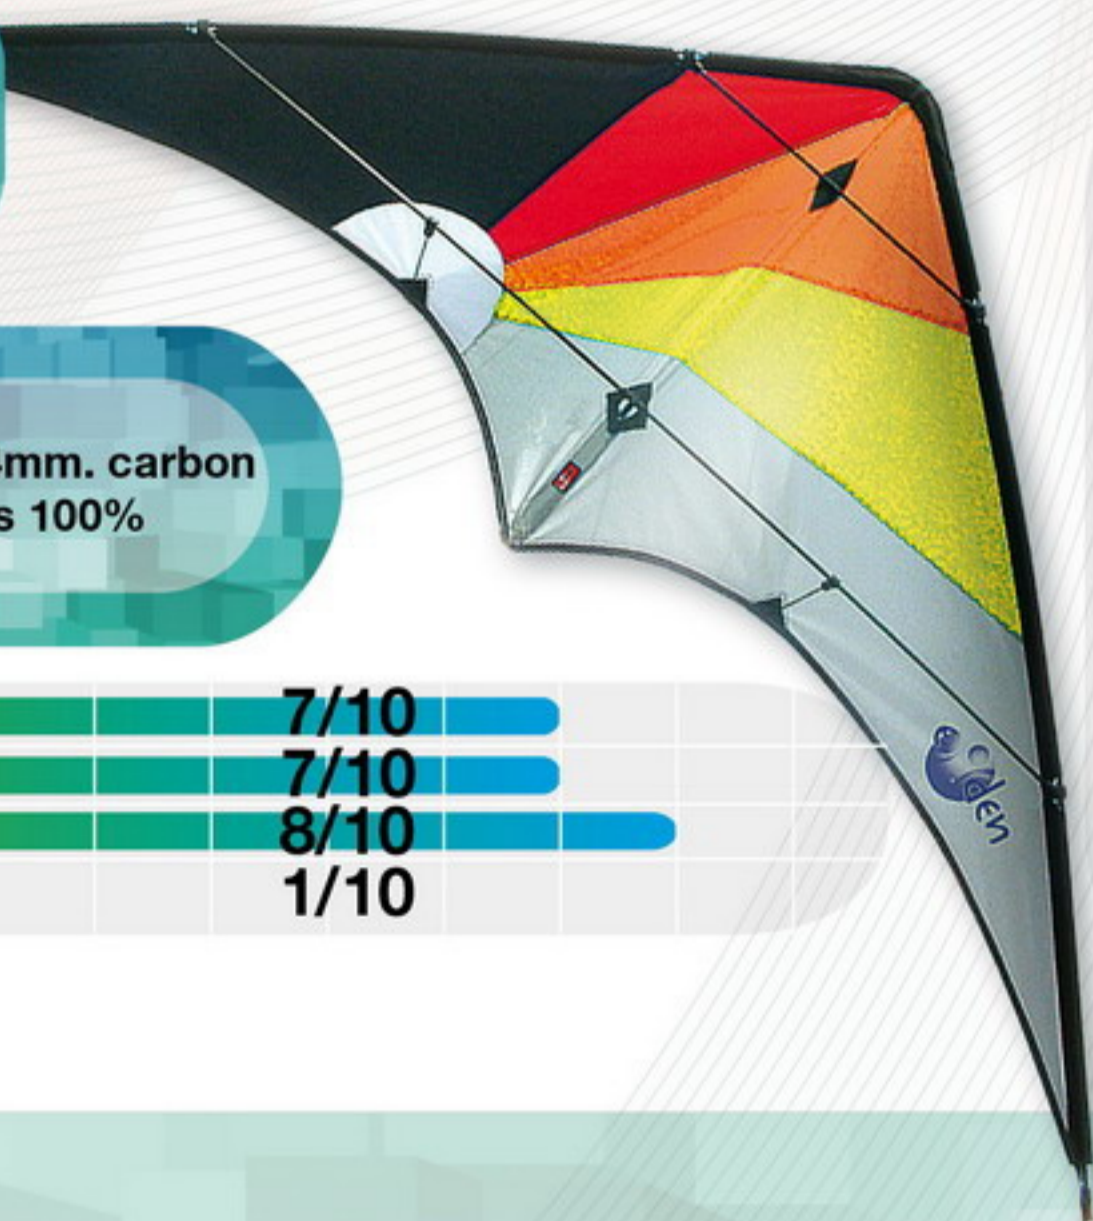

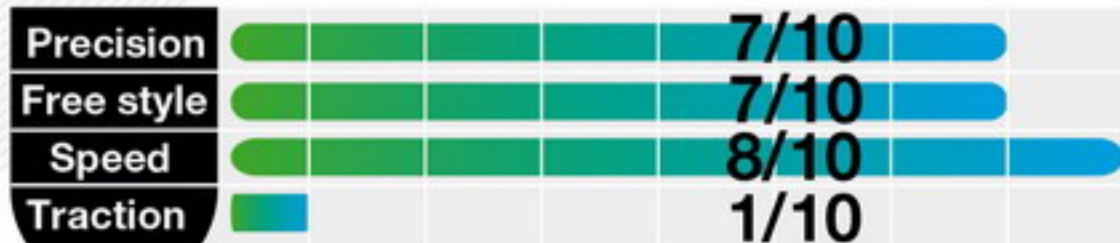

Its 1,60m wingspan allow this kite is to perform a wide

ones (cascade, etc.); you will not find same range. This is mostly due to its weight system,

SP 8305
